## Characteristics of the Student Body

### Overview

The student body comes from a wide geographical area. The Northern Highway is predominately a rural sugar cane growing area with students living on farms and in small service centres. Several of the families also have one or two parents working in the Bowen Basin which means parents have to travel to their employment.

### Average Class Sizes

The following table shows the average class size information for each phase of schooling.

AVERAGE CLASS SIZES			
Phase	2015	2016	2017
Prep – Year 3	24	20	19
Year 4 – Year 6	28	15	23
Year 7 – Year 10	15	14	20
Year 11 – Year 12	11	11	20

## Curriculum Delivery

### Our Approach to Curriculum Delivery

- A kindergarten, operated by the Creche and Kindergarten Association, has been constructed on the school's grounds and we have developed an excellent relationship with the kindergarten which has aided the kindergarten students' transition to prep.
- The Different Strokes – Mechanics Matter program which we provides students in years 7 to 12 who are interested in pursuing a career as a diesel fitter or as a mechanic, with the opportunity to work in a real life workshop environment under the guidance of a retired mechanic. Students in this program also develop their literacy, numeracy and technology skills while working in a workshop environment.
- Students from years 5 to 12 have the opportunity to study German on campus.
- Students in the senior secondary years have the opportunity to study from a wide range of subjects, some of which

are available through the Brisbane School of Distance Education. They also have the opportunity to commence tertiary study through the Start Uni Now (SUN) program operated by CQUniversity Australia. Courses which our students have studied include accounting; creative writing; digital media; engineering; nursing; short stories; sonography; and teaching.

- In addition to these opportunities, students at Calen are able to access VET certificate courses at CQUniversity and the Queensland Agricultural College.

- In 2016 and 2017, Calen was awarded the Australian Rural Education Award and was in 2011, named the top secondary school in Queensland for senior students' outcomes and meeting their needs, according to Dr Smeed's "Tracking and Academic Management Index".

- As a result of these awards, the school has been invited to present papers and workshops at national conferences in 2012, 2014, 2015, 2016 and 2017 and international symposiums in 2013 and 2016. .

## Co-curricular Activities

The following are the co-curricular activities which are offered at the school:

- Gym training;
- Sport – touch football, rugby league, netball, swimming, cross-country, athletics;
- The annual Glenden exchange;
- Debating and public speaking;
- Different Strokes – Mechanics Matter;
- Creative writing workshops and Literature Festivals;
- NAIDOC or Multicultural Days.

## How Information and Communication Technologies are used to Assist Learning

Every primary and secondary classroom has a digital projector and many also have interactive whiteboards. Information and communication technologies are increasingly being integrated into teaching and learning at Calen District State College

In addition to the digital projectors, computers are used in the primary and secondary classrooms (prep through to year 12) and in addition to the two computer laboratories, there are three laptop trollies and these are well utilized.

We are fortunate in having a Department of Education and Training Stem Champion in our school and she is also a CoderDojo champion and the organizer of the Café Sci Fi, activities which are designed to motivate and inspire our students about technology, the digital world and coding..

## Social Climate

### Overview

A number of support programs are available at the Calen District State College. We have a Guidance Officer, a School Based Health Nurse. The school does not tolerate bullying and seeks to work with both the perpetrator and the victim.

During 2016 the school conducted a review of the "Responsible Behaviour Plan" which was developed in 2012 and as a consequence the school has implemented "Positive Behaviour for Learning". PBL training for staff began in 2016 and has continued in 2017.

Our water consumption has shown a dramatic reduction in the 2016 – 2017 period.

Years	Electricity kWh	Water kL
2014-2015	156,109	3,816
2015-2016	127,421	3,611
2016-2017	166,753	1,072

The consumption data is compiled from sources including ERM, Ergon reports and utilities data entered into OneSchool by each school. The data provides an indication of the consumption trend in each of the utility categories which impact on the school's environmental footprint.
